WHY METEOR?

Full stack JavaScript for amazing apps

From idea to execution, faster.

DEVELOP

Build reactive apps for iOS, Android, and the web, entirely in JavaScript, with an open source platform.

Install Meteor › (/install)

DELIVER

Deploy, scale, and monitor apps with Galaxy, Meteor's cloud platform.

Learn more › (/galaxy)

DELIGHT

Create modern, realtime apps, in just a fraction of the time.

See example apps ›
